CAUTIONS

 FOR DOGS & CATS

Safe use in pregnant animals or animals intended for breeding has not been proven. If animals condition worsens or does not improve, stop product administration and consult your veterinarian. Caution in use with antidepressants.

TECHNICAL SPECIFICATIONS PROPERTIES

For use in promoting proper liver function in dogs and cats

STORAGE

Store at controlled room temperature.

PRESENTATION

30 ct., 60 ct.

INACTIVE INGREDIENTS

Dicalcium Phosphate, Croscarmellose Sodium, Stearic Acid, Magnesium Stearate, Coating agents.

V4B Liver Cleanser was formulated to support liver metabolic activity and help maintain proper liver function. Its unique, enteric-coated delivery system allows it to stand up formidably to stomach acid and effectively deliver the V4B Liver Cleanser to the small intestine for proper absorption. Both strengths contain SAMe and other important ingredients for proper liver support such as milk thistle to help protect liver cells from toxins and reduce damage to cells. It also contains antioxidants to help neutralize oxygen free radicals, amino acids to stimulate glutathione synthesis and reduce oxidative damage, B-vitamins to provide nutritional support ensuring proper protein and energy metabolism, and vitamin B-6 for synthesis of cysteine in the liver detoxification pathway.

ACTIVE INGREDIENTS

1 Enteric-Coated Tablet

SAMe 100 SAMe 225 SAMe 425

	SAMe 100	SAMe 225	SAMe 425
