NOSE-TOE-TAIL

ANTI-SEPTIC FOLD WIPES (w/PS)

PROPERTIES

FOR DOGS, CATS & HORSES

Chlorhexidine is a broad-spectrum antibacterial ingredient effective against common pathogens. Ketoconazole is an antifungal effective against fungi and yeasts (*Malassezia pachydermatis*). The combination of chlorhexidine and ketoconazole offers a broad-spectrum antiseptic activity.

Phytosphingosine is a pro-ceramide to restore the skin barrier and help in the long-term management of skin conditions. Phytosphingosine-salicyloyl also helps fight irritations.

V4B Anti-Septic skin fold wipes +PS may be used for the antiseptic cleansing of face folds, finger folds, axillæ and groin areas.

TECHNICAL SPECIFICATIONS DIRECTIONS FOR USE

Antiseptic and cleansing wipes for dogs, cats and horses with dermatological conditions that are responsive to chlorhexidine and ketoconazole.

1 to 3 applications per day or as directed by veterinarian. Do not allow the animal to lick the treated areas until dry to prevent ingestion. Wipes should be used for one application only; do not reuse.

INGREDIENTS (PER WIPE) PRESENTATION

Chlorhexidine 20 mg
Ketoconazole 17 mg
Phytosphingosine-salicyloyl 20 mg in alcohol-base solution.

Net contents: 50 Wipes

STORAGE

Store at controlled room temperature. Protect from freezing.

CAUTIONS

Keep out of reach of children. Do not swallow. Avoid contact with eyes or mucous membranes. If eye contact occurs, rinse thoroughly with water and consult a veterinarian.
